ROTOGRIP CS

AUTOMATIC SAFETY AT THE FLIP OF A SWITCH

 **RUD**®

ROTOGRIP Compact Solution – developed for vehicles with limited mounting space due to pneumatic suspension, or low profile tires.

A specially developed rigid chain directly connected to the piston of the dual-action cylinder activates the swing arm.

Activated by a solenoid unit, the pneumatic system returns the swivel arm and chain wheel to their disengaged when switched off.

The disengaged position is maintained by the constant application of air pressure.

If the air pressure is lost, an elastic stop holds the swing arm in place.

- simple three-cable fittings
- low maintenance

- patented drive mechanism

Keep your lift operators safe.

With multiple operations during the day, lift operators may forget to re-attach their safety harness lanyard to the boom anchorage. Now there is an easy solution from one of the leading design and manufacturing companies in America.

Vert-Alert™ is an integrated warning system that alerts operators of aerial lifts to attach their safety harness lanyard prior to elevating the lift.

PELSUE®

TRADITION+INNOVATION

VERT-ALERT™
LANYARD ATTACHMENT WARNING SYSTEM

Alerts your lift operator with an audible alarm when
"Warning, full protection not connected."

Alerts boom and bucket when bucket
is descending with sound and flashing light
"Warning, aerial lift descending."

Vert-Alert™ capabilities

- Optional interrupt feature that prevents lift from ascending if safety lanyard is not properly attached
- Descent alert
- Data logging

Model: PAV200/240 / Vert-Alert
Part No: 10-10000-00
ATTN: 120000

Various models and
anchorage options
available

Easily installed on new and existing equipment.

Towmaster's Hydraulic Tail trailer has quality features built to stringent Towmaster specs. It features a T1 steel flange outer frame design with the axles attached to a sub-frame and junior I-Beam cross members to tie it all together. This trailer includes a hydraulic operated two-piece tail with a low load angle for hauling low ground clearance types equipment. An optional hydraulic deck ramp allows equipment to be loaded onto the 8-foot top deck. A hydraulic winch can be installed to pull equipment onto the deck.

The hydraulic operated fork-under tail design features a diamond plate metal approach with wood ramps to aid in traction. Spare pockets and telescoping parking stands are standard equipment.

Driver's side controls make it easy to operate the functions. All lights on the trailer are long-lasting LEDs and the trailer is finished with two-component remainder-resistant polyurethane primer and top coat.

More information can be found at www.towmaster.com or call Towmaster at 800-462-4617.

AMERICA'S BEST TRAILERS

Towmaster is the trusted brand for auto, construction and equipment hauling. Reputed for a limited lifetime frame warranty, 100,000 miles, 10-year rust-through warranty, a Towmaster trailer is a sound investment. Visit America'sBestTrailers.com to learn more about Towmaster.

Get Cool!

Extend transformer life!

Increase transformer capacity up to 166%!

- expert technical assistance
- low sound levels
- energy-efficient motors
- large inventory
- one-piece cast aluminum blades
- galvanized or stainless steel guards

quality engineered, performance tested

ISOLATED PROTECTION

TO PREVENT GROUND LOOPS

The Lind Isolated Power Adapters provide a regulated, isolated DC output to power laptops, thin clients, monitors and other devices from a DC voltage source. Output and input DC returns are isolated, allowing the prevention of possible electrical noise caused by ground loops.

The Isolated Power Adapter's electronics are enclosed by an epoxy-sealed case to protect the internal circuits from damage caused by shock and/or vibration. Its durable construction withstands extensive wear and tear in any harsh mobile environment. Snap-in connectors make replacing missing or damaged cables from anywhere in the field easy and hassle-free.

Lind's Isolated Power Adapters are built to work with most existing laptop brands and models. These adapters can also be designed for custom applications. Contact Lind to discuss solutions for your exact mobile power needs.

The Advantage

ARMLIFT TELESCOPING ARTICULATING - TK SERIES

Outriggers or No Outriggers, You Choose

- Our TK Series Aerial Lifts offer your choice of 41', 44' or 46' working heights.
- All TK Series Models are available in both all steel or insulated models and can be mounted on a 17,500 GVW chassis.
- Standard items include full pressure controls at the bucket and base, single stick control at the bucket, hydraulic bucket rotator and 360 degree continuous rotation.
- The TK44 features 44' working height and 28' side reach with no outriggers required.

RAM® VEHICLE MOUNTING SYSTEMS

\$175.00
FROM

Powered Dock For
The GETAC B300

Tablet Mounts

Printer Mounts

Universal Laptop
Tray

Why Choose RAM Vehicle Mounts over other mounting systems?

- Shock and vibration protection
- Low cost
- Military endorsed
- Available in metal or composite
- Large selection of no-drill-vehicle bases
- Ease of installation and use
- Proven ball and socket designs
- First patented molded dock for laptops in vehicle applications
- Patented ergonomic designed docks for safety
- State of the art form and function
- Unmatched quality
- Made in USA
- Lifetime warranty

A New and EZ way to Change Oil!

Regular oil changes are an important part of equipment maintenance— but draining the oil can be very messy, and if you're not careful, you might cross thread the drain hole when reinstalling the plug. Take the pain out of the drain by using the EZ Oil Drain Valve!

The EZ Oil Drain Valve simply replaces your stock oil drain plug for fast, clean and easy oil changes. No need for tools — just lift and turn the lever of this nickel-plated brass ball valve to drain oil, and then return the lever to its original locked position when finished.

An optional hose end makes it easy to connect a hose to drain the oil into a remote receptacle, if desired. The EZ Oil Drain Valve is available in 30 different sizes for all engines.

For more information, visit www.EZoildrain.com or email us at EZoildrain@msn.com

Use Electricity to heat your floors and add comfort to your home!

- Electric radiant heat underlayment panels ideally suited for floating laminate and engineered wood flooring.
- Revolutionary wireless configuration, combining over 30 years of electric radiant heat science for a gentler, more even heat distribution.
- World's easiest radiant heat system to install uses no thinset or self-leveling mortar. Roll out, cut to fit, run lead wires to a programmable thermostat, if desired.
- Maintenance free and Saves money by consuming up to 50% less power than traditional wired systems.
