Maddox is the one-stop shop for your transformer needs

Founded by a team of industry veterans focused exclusively on the transformer and transformer-related needs of industrial and commercial clients.

Sell

Maddox stocks and sells the highest quality transformers from dry types and padmounts to substations.

Rent

With thousands of units in stock, Maddox rents out transformers for the temporary power needs of customers across North America.

Repair

With shops on both coasts Maddox inspects, tests, and repairs transformers to ensure that they are in top working condition.

Purchase

We offer a great price that includes handling all the transportation and environmental issue.

vCam Video Inspection Camera Systems

The vCam inspection systems from Vivax-Metrotech allow you to cover a range of inspections, including municipal collection systems, residential plumbing, indoor commercial lines, and lateral lines from two to eight inches in diameter. Our camera systems use the latest technology packaged in a rugged, lightweight, compact profile for the harsh conditions related to sewer lateral inspections.

STANDARD SIZE SYSTEMS

The vCam standard size systems consist of the vCam-6 HD control module and Type-CP reel. The feature-packed vCam-6 control module has 9-inch daylight viewable HD LCD, AC/DC power sources with a rechargeable battery, 1 TB hard drive, full keyboard for text overlay, internal microphone, one-touch recording and image capture, Wi-fi, and file renaming. The vCam-6 is configured to work with popular LACP software through the Mini-USB port and Video Out socket.

The Type-CP reel is constructed of stainless steel tubing welded together and using gusseted plates in heavy stress areas to prevent the frame from bending. The control module can be mounted on top of the Type-CP reel, or the reel can be used in a vertical position. Two user interchangeable high definition camera heads fit this reel, giving the user flexibility to handle 3 to 8 inches lines.

MINI SIZE SYSTEMS

The all-in-one vCamMX mini-systems consist of the vCamMX control module and MX mini-reel.

The feature-packed vCamMX control module has 8-inch daylight viewable LCD, AC/DC power sources, a rechargeable battery, an on-screen keyboard for text overlay, an internal microphone, and one-touch recording, JPEG image capture, Wi-fi, video out socket and USB port.

- Determine which breakers are serving specific branches in seconds.
- Digital signal for utmost accuracy.
- Locate up to 84 branches concurrently. *with additional transmitter
- Save time and money by greatly reducing manhours.

TASCO, INC. • 2895 W. OXFORD AVE., #7 • ENGLEWOOD, CO 80110
(303)762-9952 www.tasco-usa.com

The MX mini reel comprises a stainless-steel tubing frame and carbon fiber drum. Two user interchangeable camera heads fit this reel, allowing the user to handle lines from 1-1/2 to 4 inches. Two camera heads are available, and the camera heads are interchangeable by the user in the field. The smaller camera is the model D18-MX which is fixed position and .70-inch diameter, and the model D26-MX is self-leveling and 1.02 inches in diameter. The MX reel can be purchased without the LCD and used with the existing vCam-6 control module.

All Vivax-Metrotech camera systems are backed up by a full one-year warranty, a camera exchange program, on-site training, and local support through our dealer network. •

Healing with Honor, Felling Trailers Announces 2022 Trailer for a Cause Auction Dates

Felling Trailers, Inc. is conducting its tenth annual online auction of an FT-3 drop deck utility trailer to benefit a non-profit organization. Eagle's Healing Nest is the 2022 recipient. Felling Trailers wants to help generate awareness about the invisible wounds of war that our veterans carry. Thus, Felling Trailers manufactured and painted one of its most popular trailers, custom metallic "Patriot Blue" with chrome pinstriping and bears Eagle's Healing Nest's emblem along with its credo "Promises Made. Promises Kept." The online trailer auction will run for six days: August 22nd through August 27th. Several Felling Trailers' suppliers have joined to support Eagle's Healing Nest by sponsoring the trailer build, from lighting to tires to decking. The 2022 Trailer for a Cause sponsors are Trans-Texas, PPG, Dexter, Sealco, Peterson, Industrial Wood (Blackwood), Demco, Pacific Rim, and Metal Crafters/Flexco. One hundred percent of the winning bid will benefit Eagle's Healing Nest!

Founder Melony Butler created the Nest to be a place of peace and healing for veterans struggling from a host of issues ranging from depression, anxiety, PTSD, decades of homelessness, to addictions of many sorts. Veterans come to the Nest to heal with honor from the invisible wounds of war and time of service. Eagle's Healing Nest is located in Sauk Centre, Mn, on 124 acres with 24 buildings. Originally Minnesota Home School for girls, a veteran's healing center came to life out of an old dormitory.

INNOVATIONS

Faster Safer Workspace

iTOOLco.

ALL JACK™

Increase productivity and decrease fatigue using iTOOLco's All Jack™. Install pipe, lights, cabinets, drywall, temporary dust barriers and much more with this innovative jack designed to lift and support the weight of your workpiece while you anchor it into position.

High ceilings and ladder work are not a problem for this dynamic tool. Reach from 58" to a staggering height of 13'6". The industrial gas shock ensures a snug, stable support that stays in place while you complete the installation. Once your workpiece is secured into place, simply remove the All Jack™ by releasing the shock. More powerful than a typical support pole, the All Jack's gas shock can handle your most challenging jobs.

SCAN QR

CORDLESS CANNON 3K™

Speed, Versatility, and performance are all yours with iTOOLco's Cordless Cannon 3K™. This portable 3,000 lb. puller is intuitively designed to handle all of your day-to-day wire pulls.

The built-in capstan switch automatically turns the puller on and off. Simply tug on the rope to start the pull and slack off the rope to shut it down.

Delivers dynamic performance in remote locations or areas where power is not yet available.

The high-capacity rechargeable battery is long-lasting and delivers maximum power. The Cannon 3K™ will even chew through a medium size run of 4 - 3/5 in 3" conduit with 4 - 90s 220' long in record time and still have half the battery life for your next pull.

WE HAVE THE ROPE TO GET THE JOB DONE.

BUCCANEER
rope company
Providing strength & stability, with a twist.

Melony opened the Eagle's Healing Nest in 2012 with two functional buildings. She stated, "We will build the Nest one branch at a time until it is complete! A place to call home and a place to Heal with Honor!" Since that time, with donations from various organizations, veterans, and volunteers contributing what they can, they have been able to renovate 21 of the 24 buildings on site. When the last of the buildings are complete, the Nest will be able to house 180-200 veterans, service members, and their families.

The Trailer for a Cause auction will start on Monday, August 22nd at 7 am, running for six days, ending Saturday, August 27th at noon at Eagle's Healing Nest's Nest Fest. The Eagle's Healing Nest is a non-profit organization that receives no government funding. Nest Fest is one of a few fundraising events the Nest hosts yearly. Now in its 9th year, the volunteers and residents of the Nest open their doors and hearts to the community with Veteran made crafts, silent auction, bake sale, tours, and new this year, the Trailer for a Cause auction. The online auction can be viewed at <https://www.felling.com/our-company/trailer-for-a-cause/>. Arrangements to be made for pick up at Felling Trailers' manufacturing facility or delivery (freight extra).

DECKED CargoGlide Literally Extends Truck-Bed Utility

Never climb into a truck bed to retrieve gear ever again

DECKED reveals CargoGlide, a heavy-duty sliding bed platform that makes loading, unloading, organizing, and accessing gear for work and play more efficient. CargoGlide allows owners to store and easily retrieve heavy and bulky items like welders, compressors, heavy-duty tools, refrigerators, spare tires, rescue gear, boxes, and more without crawling into the back of the truck.

With the pull of a lever, CargoGlide rolls forward out of the truck bed from its locked position. Extending past the end of the bed by as much as 100%, CargoGlide puts gear that would be otherwise out of reach at chest level.

“CargoGlide literally extends the floor of the bed out behind the truck, giving full and unrestricted access to gear and cargo,” said DECKED VP of Marketing, Greg Randolph. “Truck owners with bed caps will find CargoGlide especially useful, as it enables them to easily and safely use and access every corner truck bed.”

More than a standalone storage solution, the CargoGlide sliding tray is designed to complement the DECKED Drawer System. Bolting CargoGlide atop the DECKED Drawer System is the ultimate solution in truck-bed utility. Owners can store heavy equipment on the CargoGlide. Beneath it, they can secure tools and smaller gear inside the Drawer System’s two full-length drawers.

CargoGlide is a particularly vital choice for any truck owner with a cap installed over their truck bed. That’s because CargoGlide lets owners easily use every inch of their bed with the accessible sliding tray -- eliminating the need to climb into, and around, a height-restricted bed to find the right tool.

DECKED CargoGlide comes in 1,000-, 1,500-, and 2,200-pound payload options, with either 75% or 100% extension of the tray available. The 1,000-lb, 75% extension option is compatible with the DECKED Drawer System, enabling a truly multifaceted approach to organizing and accessing gear.

CargoGlide is available for most full-size and mid-size trucks and cargo vans. Constructed from powder coated American steel and industrial, marine-grade plywood coated with a thermoplastic top sheet, CargoGlide is rugged enough for the harshest work environments. That means it will perform flawlessly on the jobsite as well as the great outdoors. Gear can be easily secured to the CargoGlide by affixing straps to the side rails with infinitely adjustable cargo tie down locations.

CargoGlide is also easy to install — 30 minutes is all it takes. It comes pre-assembled, so installation is as simple as drilling according to the instructions, installing the hardware and bolting it down. CargoGlide is available to purchase online now at <https://decked.com/> as well as nationwide through DECKED's network of 2,500 dealers.

Model	Extension Length	Payload	MSRP
CG 1000	70%	1,000 lbs.	\$1,331.39
CG1000XL	100%	1,000 lbs.	\$2,183.09
CG1500	70%	1,500 lbs.	\$1,722.54
CG 1500XL	100%	1,500 lbs.	\$2,823.06
CG2200XL	100%	2,200 lbs.	\$2,971.46

EXECUTIVE LEADERSHIP SUMMIT

Oct. 18, 2022

Hyatt Regency Baltimore Inner Harbor
Baltimore, Maryland

NTEA announces 2022 Executive Leadership Summit Lineup, Location

Commercial vehicle industry leaders will gather in Baltimore, Maryland, when NTEA hosts its Executive Leadership Summit at the Hyatt Regency Baltimore Inner Harbor with a full-day program Oct. 18, 2022, and an evening welcome reception Oct. 17.

"Our industry is critical to keeping all aspects of the economy moving," said Steve Carey, NTEA president and CEO. "Executive Leadership Summit provides a forum for the business owners and senior management teams of commercial vehicle companies to come together to share ideas, learn from key experts and take away insights that could be put to immediate use within their organizations."

Executive Leadership Summit addresses the dramatic marketplace dynamics currently impacting work truck industry companies. During this event, economists, industry leaders and government agencies will share targeted information, including key trends, forecasts and insights. Content is designed to further commercial vehicle industry knowledge, growth and profitability.

Topics covered include:

- Work truck industry overview and macroeconomic update from NTEA's staff economist
- Supply chain issues affecting manufacturers
- Industry leader panel with representatives from General Motors Fleet, Navistar and Allison Trans-

mission discussing current market challenges and opportunities

- A situational analysis of trends within the commercial vehicle population with NTEA staff and representatives from S&P Global Mobility and Commercial Truck Trader
- A view of the future of the commercial vehicle industry

Registration for NTEA's Executive Leadership Summit will open this summer. Visit ntea.com/executivesummit for further information and to sign up for event updates.

ABOUT NTEA

Established in 1964, NTEA – The Association for the Work Truck Industry, a 501(c)(6) organization, represents more than 2,000 companies that manufacture, distribute, install, sell and repair commercial trucks, truck bodies, truck equipment, trailers and accessories. Buyers of work trucks and the major commercial truck chassis manufacturers also belong to NTEA. The Association provides in-depth technical information, education, and member programs and services, and produces Work Truck Week® and Green Truck Summit. The Association maintains its administrative headquarters in suburban Detroit and government relations offices in Washington, DC, and Ottawa, Ontario, Canada.

Reshoring Initiative® 2021 Data Report: Essential Product Industries Drive Job Announcements to Record High

In 2021 the private and federal push for domestic supply of essential goods propelled reshoring and foreign direct investment (FDI) job announcements to a record 261,000, bringing the total jobs announced since 2010 to over 1.3 million. For the second year in a row, reshoring exceeded FDI by 100%, in contrast to 2014 thru 2019 when FDI exceeded reshoring. Additionally, the number of companies reporting reshoring and FDI set a new record of over 1,800 companies. The Data Report discusses the trend and how reshoring will continue to be key to U.S. manufacturing and economic recovery.

Jobs Announced, Reshoring + FDI, Cumulative 2010-2021

More Takeaways from the Report

- The year over year increase is due almost exclusively to companies filling supplying chain gaps of essential products including: electric batteries, semiconductors, PPE, pharmaceuticals, rare earths and renewable energy.
- The Computer and Electronics industry has seen the largest jump in % of jobs, due to semiconductor/chip investment.
- Reshoring from Asia is about 10X that from Western Europe.
- Texas led the other states in jobs announced, followed by Tennessee.
- Preliminary data indicates a continuing surge of reshoring and FDI in 2022.

Reshoring was the key to U.S. manufacturing and economic recovery in 2021. The Biden administration actions to fix key supply chains contributed substantially to the 2021 and forecast 2022 results but are short term fixes. We see the administration applying tourniquets rather than addressing the underlying issue of U.S. manufacturing cost being uncompetitive. The Reshoring Initiative offers the Biden administration our help in developing essential policies. Our Competitiveness Toolkit is available to help quantify the impact of policy alternatives, including a stronger skilled workforce, competitive corporate tax rates and a lower U.S. dollar.

See the full report Reshoring Initiative 2021 Data Report: Essential Product Industries Drive Job Announcements to Record High for detailed analysis.

About the Report

The Reshoring Initiative's 2021 Data Report contains data on U.S. reshoring and FDI by companies that have shifted production or sourcing from offshore to the United States. The report includes 2021 data and projections for 2022 full year. The report provides data and analysis in categories ranging from the number of manufacturing jobs gained, to a breakdown of data by industry, country and state.

"We publish this data semiannually to show companies that their peers are successfully reshoring and that they should reevaluate their sourcing and siting decisions," said Harry Moser, founder and president of the Reshoring Initiative. "With 5 million manufacturing jobs still offshore, as measured by our \$1.1 trillion/year goods trade deficit, there is potential for much more growth. We call on the administration and Congress to enact policy changes to make the United States competitive again."

About the Reshoring Initiative

A 50-year manufacturing industry veteran and retired President of GF Machining Solutions, Harry Moser founded the Reshoring Initiative to move lost jobs back to the U.S. For his efforts with the Reshoring Initiative, he was named to the Industry Week and Association for Manufacturing Excellence (AME) Halls of Fame.

"As a safety professional, you always want your workers to have access to leading edge safety tools that improve safety and focus.

Working with **COOLSHIRT SYSTEMS** over the past two years allowed me to help design a tool **by linemen for linemen**.

The **A.R.C. Hybrid Cooling System** by **COOLSHIRT SYSTEMS** allows linemen to remain more focused and less fatigued by reducing their core body temperature in extreme environments, therefore reducing the possibility of unintended accidents."

-James "Jim" Bonner
Compliance Coordinator- Retired
Alabama Power

A.R.C. **Hybrid Cooling System**

Complete Arc Rated Portable Cooling Solution

Developed in conjunction with major power companies for use in extreme heat conditions, the **A.R.C. Hybrid Cooling System** uses liquid cooling to reduce fatigue, injury, and heat stress related illness.

Designed specifically for use by linemen, the **A.R.C. Hybrid Cooling System** features a compact design with a custom woven strap mounting system. The use of S-hooks offers the versatility of mounting inside or outside of the bucket.

Designed with portability in mind, measuring **6" x 6" x 20"** and weighing in at **less than 10 lbs dry**. The unit is entirely self-contained and built to last with a 20,000 hour pump.

BATTLE AX

LOW AND HIGH FLOW SKID STEERS & EXCAVATORS 10,000 LBS - 88,000 LBS

DON'T BITE OFF MORE THAN YOU CAN CHEW

...OR LESS

EXCLUSIVE DEPTH GAUGE DESIGN

The key to maximizing productivity from a mulching attachment is not to bite off too much – or too little – material at one time. That's why we gave the new Battle Ax rotor unique depth gauges that optimize the material feed rate to always keep the machine operating at top efficiency.

TWO-STAGE CUTTING CHAMBER

Thoroughly process material with the exclusive two-stage cutting chamber featuring an adjustable primary shear bar.
