Brass Knuckle®, Application-Specific Protective Gloves Are Easy to Source

User-friendly selection tools take the guesswork out of stocking

The hand is the leading body part injured at work and treated in hospital emergency departments, with acute hand and finger injuries sending over one million workers to the emergency room annually in the United States. Brass Knuckle® offers a complete line of gloves for maximum protection along with comfort and dexterity — and the company strives to make specifying gloves easier, with robust selection tools that make narrowing down glove choices a breeze.

In its effort to help make gloves fit better, Brass Knuckle shines in the “construction of the glove.” Gloves are tested and measured against the following criteria: longer wear life, maximum dexterity, defined flex points, plus a wide range of protective features. Application-specific glove construction is critical. Brass Knuckle leads in understanding fibers, coatings, special features, and other material construction attributes that blend protection and value.

"As a safety professional, you always want your workers to have access to leading edge safety tools that improve safety and focus.

Working with **COOLSHIRT SYSTEMS** over the past two years allowed me to help design a tool **by linemen for linemen.**

The **A.R.C. Hybrid Cooling System** by **COOLSHIRT SYSTEMS** allows linemen to remain more focused and less fatigued by reducing their core body temperature in extreme environments, therefore reducing the possibility of unintended accidents."

-James "Jim" Bonner
Compliance Coordinator- Retired
Alabama Power

A.R.C. Hybrid Cooling System

Complete Arc Rated Portable Cooling Solution

Developed in conjunction with major power companies for use in extreme heat conditions, the **A.R.C. Hybrid Cooling System** uses liquid cooling to reduce fatigue, injury, and heat stress related illness.

Designed specifically for use by linemen, the **A.R.C. Hybrid Cooling System** features a compact design with a custom woven strap mounting system. The use of S-hooks offers the versatility of mounting inside or outside of the bucket.

Designed with portability in mind, measuring **6" x 6" x 20"** and weighing in at **less than 10 lbs dry**. The unit is entirely self-contained and built to last with a 20,000 hour pump.

A.R.C. Hybrid Cooling System
2002-0017

COOLSHIRT
TEMPERATURE CONTROLLED GARMENTS

Brass Knuckle offers three signature, application-specific glove lines, with multiple gradient options within each line. SmartCut™ gloves are cut-resistant from ANSI cut 2 through 5 and from 12 through 18 gauge. The cut lineup includes the company's SmartShell™ glove, a favorite for impact protection. SmartSkin™ gloves keep hands dry from nasty and sometimes dangerous liquid hazards without compromising comfort. SmartFlex™ are superior general purpose gloves with construction that delivers unparalleled comfort. CleanHand® disposable gloves are also available.

Brass Knuckle provides two ways to find the perfect glove. An exclusive interactive tool allows you to choose gloves by type, gauge, shell, and coating. Or, use the Hand Protection Product Selector Guide

and see the full line of Brass Knuckle gloves at a glance, with 15 individual characteristics that define each glove.

For more information, visit <https://www.brassknuckleprotection.com/>.

About Brass Knuckle
Brass Knuckle® grew out of a partnership with one of North America's oldest dedicated safety product supply companies. From product inception to quality control, we manage every aspect of product development to ensure ergonomics, protection, and cost efficiency, maximizing compliance and safety. Brass Knuckle is a member of the Volk Enterprises family of companies, whose international strategic alliances with documented professional supply partners allow for a full range of safety products, programs, and services to clients across the globe. For more information, contact Brass Knuckle® Safety Products, 1335 Ridgeland Parkway, Suite 120, Alpharetta, GA 30004. Phone: 770-674-8930.

BROWN BEAR CORPORATION

CORNING, IA 50841
www.youtube.com/c/Brownbearcorp

Combined, the companies accumulated 16 awards and honors this past year

JLG Industries, Inc., an Oshkosh Corporation company [NYSE: OSK] and a leading global manufacturer of mobile elevating work platforms (MEWPs) and telehandlers, received 12 industry awards in 2022, highlighting the company's most recent innovative product introductions and JLG® equipment with high long-term resale value.

RER magazine honored JLG with two Innovative Product Awards. A Technology Enhancements award for the company's suite of telehandler accessory offerings and a Miscellaneous award for JLG's "Access Your World" virtual experience.

EC&M magazine named the JLG DaVinci® AE1932 all-electric scissor lift its Product of the Year in the Construction Equipment Category. The Construction Machinery ME Awards also awarded the DaVinci lift as its Electric Machinery of the Year.

JLG won two International Awards for Powered Access (IAPA) this past year. The DaVinci lift was again distinguished as the Product of the Year, as was the company's 670SJ self-leveling boom lift. The 2022 Leadership in Lifting Equipment and Aerial Platforms (LLEAP) Awards also recognized JLG's 670SJ self-leveling boom lift, giving it a Gold Award — the highest honor. JLG's DaVinciGo App received a Silver LLEAP Award.

The JLG Next-Gen Augmented Reality App received a 2022 Rental Editor's Choice Award, and the company's new line of Rotating Telehandlers was named a Construction Equipment Top 100 Winner, as well as a 2022 Top Introduction by Heavy Equipment Guide.

And last, but not least, EquipmentWatch's annual Highest Retained Value Awards this year included the JLG H340AJ hybrid boom lift and FT70 Liftpod model.

JLG's parent company, Oshkosh Corporation, received four industry awards in 2022. The company was recently named one of America's Most Responsible Companies by Newsweek, the fourth consecutive year it has been awarded this honor. In addition to Newsweek's recognition, Oshkosh was named one of Fortune's 2022 World's Most Admired Companies, a Leading Disability Employer 2022 by the National Organization on Disability and one of the World's Most Ethical Companies by Ethisphere™ for seven consecutive years.

To learn more about Oshkosh Corporation, please visit oshkoshcorp.com. For more information on JLG products and services, please visit JLG.com.

About JLG Industries, Inc.

JLG Industries, Inc. is a world-leading designer, manufacturer, and marketer of access equipment. The Company's diverse product portfolio includes leading brands such as JLG® aerial work platforms; JLG and SkyTrak® telehandlers and rotary telehandlers; and an array of complementary accessories that increase the versatility and efficiency of these products. JLG is an Oshkosh Corporation company [NYSE: OSK]. For more information about JLG Industries, Inc., visit www.jlg.com, or find us on Twitter, Facebook, LinkedIn, Instagram and YouTube.

About Oshkosh Corporation

At Oshkosh [NYSE: OSK], we make innovative, mission-critical equipment to help everyday heroes advance communities around the world. Loftness Updates Its Battle Ax™ S Series Mulching Head for Skid Steers, Compact Track Loaders

Loftness has updated its highly successful Battle Ax™ S Series mulching head with new features for enhanced durability and serviceability.

Designed for skid steers and compact track loaders with 28 to 62.9 GPM hydraulic flow and 50 to 150 hydraulic horsepower, the S Series now includes a reversible secondary shear bar in the two-stage cutting chamber to always allow a fresh cutting edge. After all four edges of the shear bar have been exhausted, the bolt-on design allows it to be easily replaced. Previously, the secondary shear bar was welded on the front bumper, and only the primary shear bar was replaceable.

Next, the S Series is available with a replaceable wear liner, which helps protect the drum from excessive wear when working in abrasive conditions. It also has a bolt-in design for easy replacement.

Always **250+**

www.alasher.com

Other design enhancements, such as a new recessed belt cover with welded body reinforcements, have been included in the latest update to protect against damage and ensure long-lasting reliability. The S series comes with a two-year warranty as a testament to the durability of the Battle Ax and for added customer peace of mind.

The Battle Ax has gained popularity in the vegetation management industry for its unique rotor design, which features built-in depth gauges. These depth gauges function similarly to raker teeth on chain saws to prevent the attachment from engaging too much material at one time. This design is more ideal for managing the amount of material being fed into the attachment than ring-style rotors, which many operators find to be overly limiting. The Battle Ax is also known for its ability to thoroughly process material into consistent, well-sized particles because of the Loftness-exclusive two-stage cutting chamber.

Loftness is an employee owned company. It manufactures the VMLogix line of vegetation management equipment, which includes hydraulic oil coolers, the Kwik-Trim compact mechanical tree trimmer, and high-performance mulching heads for a variety of equipment, ranging from excavators, skid steer loaders and up to 375-horsepower prime movers. For more information on Loftness' complete product line, contact Loftness Specialized Equipment, P.O. Box 337, Hector, MN 55342, call 800-828-7624 (U.S. and Canada) or 320-848-6266 (international), email info@loftness.com, or visit www.loftness.com •

INNOVATIONS

Faster Safer Workspace

iTOOLco.

ALL JACK™

Increase productivity and decrease fatigue using iTOOLco's All Jack™. Install pipe, lights, cabinets, drywall, temporary dust barriers and much more with this innovative jack designed to lift and support the weight of your workpiece while you anchor it into position.

High ceilings and ladder work are not a problem for this dynamic tool. Reach from 58" to a staggering height of 13'6". The industrial gas shock ensures a snug, stable support that stays in place while you complete the installation. Once your workpiece is secured into place, simply remove the All Jack™ by releasing the shock. More powerful than a typical support pole, the All Jack's gas shock can handle your most challenging jobs.

SCAN QR

CORDLESS CANNON 3K™

Speed, Versatility, and performance are all yours with iTOOLco's Cordless Cannon 3K™. This portable 3,000 lb. puller is intuitively designed to handle all of your day-to-day wire pulls.

The built-in capstan switch automatically turns the puller on and off. Simply tug on the rope to start the pull and slack off the rope to shut it down.

Delivers dynamic performance in remote locations or areas where power is not yet available.

The high-capacity rechargeable battery is long-lasting and delivers maximum power. The Cannon 3K™ will even chew through a medium size run of 4 - 3/5 in 3" conduit with 4 - 90s 220' long in record time and still have half the battery life for your next pull.

THE RIGHT TOOL FOR THE JOB

THE M150 IS IDEAL FOR PLANT, OIL REFINERY OR WAREHOUSE APPLICATIONS. SITTING AT JUST OVER 11 FT. TALL THE M150 CAB-DOWN IS IDEAL WHEN SPACE IS LIMITED. WITH ITS COMPACT SIZE THIS LOW-PROFILE CRANE IS DESIGNED FOR HIGH PERFORMANCE WHILE REMAINING VERSATILE TO AN ARRAY OF WORK ENVIRONMENTS.

M150 - 15 TON

- ✓ Optimal operator comfort
- ✓ Fully adjustable controls
- ✓ Best in class load chart

Stand out safety features!
(Override key switch, rear view camera, ext. LMI utilization light)

footprint of under 17 feet, and a digital recorder to continuously measure the length of cable deployed and line tension. The small, diesel-powered On-board Rapid Recharge System by S+R™ provides superior performance and automatic battery management to ensure every job is completed without interruption or concern for battery capacity so the operator can focus on the job at hand. Plus, customers receive support in real-time with S+R Telematics™ at no additional cost with each E+ Series unit.

Sherman+Reilly's Duct Dawg E+ is an electric underground puller with an all-electric drivetrain and a 7,500 pound pulling capacity. Part of the E+ Series line of equipment, the Duct Dawg E+ is transforming customer expectations with its all-electric drivetrain built to exceed all-day use and its 'right-sized' battery solution to never leave you short. This 'right-sized' battery solution maximizes your capital and carbon investment, and provides a quicker return on your investment.

Five years in development, the E+ Series all-electric drivetrain provides precision control response compared to diesel-power. An all-electric drivetrain provides immediate access to maximum torque, and reduced noise, operational cost, and emissions. The E+ Series delivers an electric product with a practical sized battery and a charging strategy that supports the work. Oversized batteries increase the total cost of ownership. Undersized batteries won't do the job. For Sherman+Reilly, designing the E+ Series to maximize capital and carbon investment objectives and exceed performance expectations was imperative.

The Duct Dawg E+ is equipped with a wireless remote-control for safer operation, a three-speed gearbox, twin capstan bullwheels, a compact

Since its operational control is electric, response is precise and instantaneous for smooth and immediate pulls. Electric units make for a quieter work area, leading to better communication and a safer jobsite.

Sherman+Reilly's ingenuity and commitment to quality manufacturing continues to define the standard for utility line stringing equipment. The E+ Series brings ideal electric design with right-sized battery solutions for a smaller carbon footprint and less capital expense for a quicker return on your investment. Contact Sherman+Reilly today for more information and experience quiet, precise, all-day operation with the Duct Dawg E+ electric underground puller.
